

XXL REHAB®

BARIATRIC SUIT

The XXL-Rehab Bariatric Suit is made to use as a link, for better understanding and learning of the abilities when you are a bariatric patient.

When you put on the suit, you obtain a wide view of the mobility patterns, the restricted movement of the body and other issues related to a bariatric user that you never thought of before!

This gives a higher level of knowledge for staff who handle bariatric users and can help to improve their cooperation with bariatric users.

The XXL-Rehab Bariatric Suit is particularly useful in connection with seminars dealing with transfer and knowledge sharing within the health sector.

The XXL-Rehab Bariatric Suit comes with clothes and a carry bag.
